FOR IMMEDIATE RELEASE:

The Center Announces the Recipients of the 2013 RoofPoint^{CM} Excellence in Design Awards

Washington, D.C. – January 13, 2014 – The Center for Environmental Innovation in Roofing (Center) is pleased to announce the recipients of the 2013 RoofPoint^{CM} Excellence in Design Awards. This year's award winning projects were selected among all projects submitted in 2013 and were evaluated based on the mission and criteria of RoofPoint^{CM}. There are now over 275 projects that have earned the RoofPoint^{CM} Recognized Project designation.

RoofPoint is a voluntary, consensus-based green rating system developed by the Center to provide a means for building owners, roofing contractors, and designers to select roof systems based on long-term energy and environmental benefits.

The 2013 RoofPoint Excellence in Design Award contest recognizes design excellence in eight (8) categories. Award recipients best exemplify the requirements of specific RoofPoint credits, and demonstrate significant leadership in advancing the awareness and application of sustainable roofing. The 2013 award winners are listed below:

- *Excellence in Energy Management*
Sika Sarnafil
Project: George W. Bush Presidential Center – Dallas, TX
- *Excellence in Materials Management*
F.A. Taylor & Son, Inc.
Project: 6940 Columbia Gateway – Columbia, MD
- *Excellence in Water Management*
GSM Roofing
Project: GSM Headquarters Garden Roof – Ephrata, PA
- *Excellence in Life Cycle Management*
Hutchinson Design Group, Ltd.
Projects: Private Manufacturing Facility Roof Recovers – North Chicago, IL
